To the Ledbury Urban Council 2nd

Ledbury
Jany 15. 1907

Gentlemen

I beg to report that there have been registered in your District during the year 1906, 71 Births, of which 38 were Boys, and 33 Girls, and 6 were illegitimate, making a Birthrate of 21.5 per thousand of the population — and 50 Deaths as against 68 in the previous year; of these 12 were over 70 years of age and 8 over 80 years —

Ten of the deaths occurred in non-residents, so that the deathrate in those belonging to the Urban District is only 12.1 per 1000 as against 17 per 1000 for the previous year.

It is satisfactory to note that the deaths under 1 year of age numbered only 4 as against an average

of 9.8 for the ten preceding years.
The chief causes of death, besides
senile decay, were Heart diseases 8,
Bronchitis 5, Phthisis Pulmonalis 5,
Pneumonia 4 and Cancer 3.
Only 8 cases of Infectious disease
were notified to me, namely
Diphtheria 4, Scarlet-fever 2,
Typhoid fever 1 and Erysipelas 1.
An epidemic of measles (not notifiable)
occurred in July and August, and
it was deemed advisable to close
the schools in the Town for two periods
of a fortnight.
The Septic tanks in the Jubilee Meadows
continue to work satisfactorily
including the one made in the Spring
of the year - and I strongly recom-
mend a similar covering over of the
tank in Griffin's Meadow and also
of the one opposite the Workhouse.
The water supply has been quite
satisfactory since the completion
of the new well and heading

at the pumping station, so that 150,000 gallons a day might now be pumped daily if required –

The Slaughter Houses, bakeries, dairies and workshops & lodging houses have been regularly visited and generally found in a satisfactory state.

The Summary of work done in 1906 is as follows: —

Houses & premises inspected		263
Plans for new houses & shops submitted & passed		10
Overcrowding abated		4
Infectious cases enquired into		8
Houses disinfected		8
New water services		21
Sundry nuisances abated		43
Dairies Cowsheds & Milkshops inspected		7
Slaughterhouses	—	5
Bakeries	—	8
Factories	—	4
Schools	—	5
Lodging houses	—	4

I am
Yrs obediently
Miles A Wood
M.O.H.

To the Ledbury Urban Council

Ledbury
Jany 15/07

Gentlemen.

I beg to report that there have been registered in your District during the year 1906, 71 Births of which 38 were Boys, and 33 Girls and 6 were illegitimate, making a Birthrate of 21.5 per 1000 of the Population; and 50 deaths, as against an average of 69 for the ten previous years; of these 12 were over 70 years of age and 8 over 80 years.

Ten of the deaths occurred in non-residents, so that the death rate in those belonging to the District is only 12.1 per 1000, as against an average of 17.6 for the ten preceding

years.
It is satisfactory to note that the number of deaths under one year of age is only 4 as against an average of 9.8 for the two preceding years -
The chief causes of death, besides senile decay, were Heart diseases 8, Bronchitis 5, Phthisis 5, Pneumonia 4 and Cancer 3.
Eight cases of Infectious diseases were notified to me during the year, namely Diphtheria 4, Scarlet fever 2, Typhoid Fever 1 and Erysipelas 1.
An Epidemic of measles occurred in July & August and it was deemed advisable to close the Schools in the town for two periods of a fortnight each.
The Septic tanks in the Salisbury

Meadows continues to work well,
And I strongly recommend a similar
Covering over of the tanks in Griffin's
Meadow & that of Speriles the workhouse.
The water supply has been satisfactory
Since the new well was completed,
It that 150,000 gallons might now
be pumped up daily, if needed.
The Slaughter houses, Bakeries, Dairies,
Workshops & Lodging houses have
been periodically inspected and
generally found in a satisfactory
State

I am

Yr Obediently

Miles A Wood Foles.

M.O.H.
